

Press Release – American Broach & Machine Company

575 South Mansfield Street, Ypsilanti, Michigan 48197
Ph (734) 961-0300 Fax (734) 961-9999

American Gear Tools (AGT), a recently launched division of American Broach & Machine Company hires Leon Kozlov as General Manager, September, 2009.

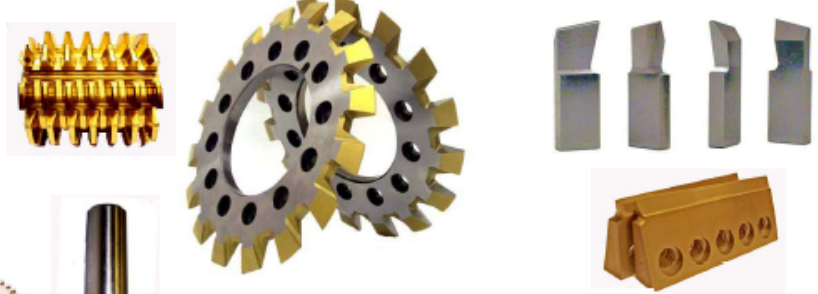

Mr. Kozlov leon@americanbroach.com, with more then 30 years experince designing and developing gear cutting tools, formally with Barit International as the V.P. and Chief Engineer, joined AGT as the division manager September 8th, 2009. Stop by our booth #716 at the Gear Expo 2009 Show, September and say hello and congradulations. You are also invited to call or stop in our Ypsilanti, Michiagan location this fall to visit Leon, and tour our factory.

American Gear Tools will design and deliver hob cutting tools, shaper cutters, shaving cutters, milling cutters, stright and spiral bevel cutters, and spline rolling racks. Engineering, and inspection services, including our gear lab featuring the MDM Metronics analytical gear inspection machine, support customer trouble shooting, and application enhancements, along with gear cutting tool regrinding services will be our focus.
